Maximum Kick with Minimum Impact: Explorations of Low-Carbon Building Systems

Join AIACV's Custom Residential Architect's Network (CRAN) and Committee on the Environment (COTE) for a presentation with David Arkin, AIA, LEED AP, exploring Low-Carbon Building Systems.

David and his wife Anni Tilt are the principals of Arkin Tilt Architects, a northern California firm specializing in energy and resource efficient design. Their award-winning projects embody a marriage of thoughtful design and ecology, and they have extensive experience in solar, strawbale and other natural building technologies. David currently serves as Director of the California Straw Building Association (CASBA www.strawbuilding.org).

Recent Projects Included: Esalen Institute Lodge Renovation & Expansion, El Cerrito Natural Grocery Annex, Carmel Green Classroom, and many others.
