ACCESSIBILITY IN A DAY

Instructors: Mark Wood, CASp and Paul Klein, CASp

The class will focus on the areas of the 2019 California Building Code Chapter 11B which are most commonly misunderstood and/or misapplied. The importance of NOT designing or constructing required accessible element to the minimum or maximums and the consequences if you do, will be explored. Ample time will be provided to discuss real time issues faced by the class attendees and how to mitigate them.

Learning objectives:

- Understand the differences between State & Federal accessibility regulations, standards & codes
- Understand the history of State & Federal accessibility regulations, standards & codes
- Understand scoping as it relates to the broad application of all accessibility regulations, standards & codes
- Learn the concepts and the why behind the standards, regulations & codes.

Mark Wood, CASp and Paul Klein, CASp have been responsible for ensuring compliance with California accessibility requirements found in the California Building Code Title 24 and American With Disabilities Act for over 20 years. They own and operate California Certified Accessibility Specialists, (CalCasp) offering a full range of accessibility compliance services to assist businesses, property owners and architects in complying with Senate Bill 1608 and the Americans with Disabilities Act (ADA).
