ARCHITECTURA OBSCURA: AN EVENING OF ARCHITECTURAL PHOTOGRAPHY

DATE: Wednesday, October 17th, 6 - 9 pm

PLACE: Sacramento Regional Builders Exchange,
5370 Elvas Avenue, Sacramento

COST: \$10

REGISTER: EA18archobs.bpt.me

This inspiring exhibition, reception and awards presentation showcases the award-winning photographs entered into the Architectura Obscura Photography & Instagram Competition. Enjoy refreshments while mingling with talented photographers who will share details on how they capture the beauty and detail of architecture in photography, both in our region and beyond.

This year, the competition focuses on the concept of alternative vantage points as a way to look at buildings differently. Viewing buildings from an alternative perspective, angle or vantage point allows us to experience the built environment in a new and unique way and provides an interesting challenge to the competition participants. This challenge has resulted in the submission of dozens of high-quality print images, as well as hundreds of Instagram digital submissions from artists who range in experience from hobbyist to professional — engaging all levels of photographers in competition.

Exhibition on display Oct 17 - Nov 20. Exhibit hours are Monday - Friday, 8:30 am - 5:30 pm.

Competition and event founded by Kristopher Barkley, AIA.
