Experience Architecture is an annual public-outreach event that is developed and led by AIA architects and associate members in collaboration with our Allied members, Sustaining Partners and community organizations. It's designed to facilitate greater transparency with the public in how architects create our built environment and how it impacts their daily lives; to create an ongoing dialogue to inform a distinct, regional, architectural identity; and to highlight existing relationships between the region and its architecture.

Event Founder: Kristopher Barkley, AIA

Sponsors: Comstock's Magazine, Fulcrum Property Corp., HGA, Lionakis, Milgard Windows & Doors, SmithGroup, SMUD and Dreyfuss + Blackford Architecture.
