

2023 AIA Central Valley Design Awards Healthcare Jury

Randy Guillot, FAIA, LEED | Design Principal at Gensler in Chicago

Randy's leadership in design leverages a belief in multidisciplinary partnerships and creates new models for healing, learning, and working. Drawing on the design work he has led across building types including Education, Sciences and Workplace, his client's projects are celebrated for their critical design success and their enhancement of access to healthy, dignified, optimistic, and engaging environments for all. As a Design Fellow in the American Institute of Architects, Randy has been recognized with more than 50 local, national, and international design awards over 30 years and is a member of

the National ULI Health Sciences Council. He graduated from the Rhode Island School of Design with degrees in fine art and architecture. Randy is university lecturer and critic and has expanded the profession's commitment to mentorship and partnerships with higher education through enabling unique 'in-residence' studio programs for students.

Mike McKay, AIA, ACHE, EDAC, LEED AP, NCARB | Director of Planning, Design & Construction at UW Health, University of Wisconsin

Mike is the Director of Planning Design Construction and Real Estate for UW Health, the integrated health system of the University of Wisconsin-Madison, caring for more than 650,000 patients each year with 1,785 employed physicians and 21,000 employees at seven hospitals and 77 clinic locations. UW Health is governed by the UW Hospitals and Clinics Authority and partners with the University of Wisconsin School of Medicine and Public Health, School of Nursing and School of Pharmacy, to fulfill its patient care, research, education, and community service missions. Our vision is

remarkable healthcare.

Planning Design Construction and Real Estate supports the UW Health vision by managing all matters concerning space across our system of care: the planning, design and construction of; whether it is new and additional space via build, purchase or lease; or existing space via the transfer, relinquishing, change of use,

renovation or remodel of; and all of the furniture, fixtures, equipment, art and signage in and on that space. Today, this space across our system of care encompasses 166 buildings, approximately 10 million square feet, and 125 leases.

Mike is a registered architect in multiple States with 34 years of professional practice experience, most of which has been within the healthcare, continuum of care and senior living project markets. As an evidence based design accredited professional, he supports the application of research to planning, design, and construction, while also promoting sustainable design in the architecture and engineering of the built environment. In his position at UW Health, Mike is able to apply this passion to the environments of care for the patients and their families we serve, and the exceptional team of physicians, nurses and staff who deliver remarkable healthcare in one of the best integrated health systems in the Country.

He and his family live, work, learn, and play in Madison, Wisconsin .

**Annie Coull, AIA, ACHA, EDAC | retired Healthcare
Principal at Stantec and Anshen + Allen**

In over 25 years of leading healthcare programming, conceptual planning, and project detailed design, Annie has pursued a special interest in facilitating teamwork that successfully synthesizes diverse user input and a breadth of architectural options.

Her main areas of focus have been the design of healthcare environments for women, children, and families. Each project is created to deliver an industry-leading patient and provider experience at the intersection of design process and organizational culture.

With professional experience in psychology, child development, and healthcare architecture and having achieved a Master of Architecture, a Master of Education, and a Bachelor of Psychology, Annie brings a unique sensitivity to the special needs of children, families, and staff in the healthcare setting. She creates environments that dignify and foster respect for children of all ages, support families in stress, and enhance the ability of staff to provide care.
